

REMARKS

This amendment is in response to the Final Office Action mailed October 18, 2007. Applicant hereby withdraws from consideration the previous amendment that was not entered even though Applicant believes that the same would have constituted a proper response in view of the fact that the dependent claims are construed to include all of the limitations of the base claims.

Pursuant to the foregoing amendment, Claims 10, 11, 18, and 19 are pending in the application. All of the other claims are canceled by the foregoing amendments.

The indication of allowable subject matter is noted with appreciation. In response to that indication, the claims have been now been amended exactly as set forth in the Office Action. Claim 10 has been amended by inclusion of all of the limitations of previous base Claim 1 and Claim 18 by inclusion of all of the limitations of previous base Claim 12. Claims 11 and 19 are, respectively, dependent on Claims 10 and 18 and are thus also allowable.

As previously pointed out, the grille shelter of this invention has side wall housing sections that can be opened so the grille can be used within the shelter or alternatively removed out of the shelter to an open location. The housing structure, as set forth in all of the amended claims, includes a rear wall to which the first and second side walls are pivotally connected, each of which has a section formed of panels that are fixed together in a perpendicular relationship to each other so that the shelter housing can be opened without comprising the stability of the shelter.

CONCLUSION

In light of the foregoing, applicant respectfully submits that he has addressed each and every item presented by the Examiner in the Final Office Action. Favorable reconsideration of all of the claims as amended is earnestly solicited.

In the event any further matters requiring attention are noted by Examiner, a telephone call to Applicant's undersigned representative at the number shown below would greatly be appreciated

Respectfully submitted,

Date: January 14, 2008
